All Rights Reserved.**

User and training guides and related documentation from Parametric Technology Corporation and its subsidiary companies (collectively "PTC") are subject to the copyright laws of the United States and other countries and are provided under a license agreement that restricts copying, disclosure, and use of such documentation. PTC hereby grants to the licensed software user the right to make copies in printed form of this documentation if provided on software media, but only for internal/personal use and in accordance with the license agreement under which the applicable software is licensed. Any copy made shall include the PTC copyright notice and any other proprietary notice provided by PTC. Training materials may not be copied without the express written consent of PTC. This documentation may not be disclosed, transferred, modified, or reduced to any form, including electronic media, or transmitted or made publicly available by any means without the prior written consent of PTC and no authorization is granted to make copies for such purposes.

Information described herein is furnished for general information only, is subject to change without notice, and should not be construed as a warranty or commitment by PTC. PTC assumes no responsibility or liability for any errors or inaccuracies that may appear in this document.

The software described in this document is provided under written license agreement, contains valuable trade secrets and proprietary information, and is protected by the copyright laws of the United States and other countries. It may not be copied or distributed in any form or medium, disclosed to third parties, or used in any manner not provided for in the software licenses agreement except with written prior approval from PTC.

UNAUTHORIZED USE OF SOFTWARE OR ITS DOCUMENTATION CAN RESULT IN CIVIL DAMAGES AND CRIMINAL PROSECUTION. PTC regards software piracy as the crime it is, and we view offenders accordingly. We do not tolerate the piracy of PTC software products, and we pursue (both civilly and criminally) those who do so using all legal means available, including public and private surveillance resources. As part of these efforts, PTC uses data monitoring and scouring technologies to obtain and transmit data on users of illegal copies of our software. This data collection is not performed on users of legally licensed software from PTC and its authorized distributors. If you are using an illegal copy of our software and do not consent to the collection and transmission of such data (including to the United States), cease using the illegal version, and contact PTC to obtain a legally licensed copy.

Important Copyright, Trademark, Patent, and Licensing Information: See the About Box, or copyright notice, of your PTC software.

**UNITED STATES GOVERNMENT RESTRICTED RIGHTS LEGEND**

This document and the software described herein are Commercial Computer Documentation and Software, pursuant to FAR 12.212(a)-(b) (OCT'95) or DFARS 227.7202-1(a) and 227.7202-3(a) (JUN'95), and are provided to the US Government under a limited commercial license only. For procurements predating the above clauses, use, duplication, or disclosure by the Government is subject to the restrictions set forth in subparagraph (c)(1)(ii) of the Rights in Technical Data and Computer Software Clause at DFARS 252.227-7013 (OCT'88) or Commercial Computer Software-Restricted Rights at FAR 52.227-19(c)(1)-(2) (JUN'87), as applicable. 01012012

## About This Guide

This document provides release-specific information for Web.Link for Creo Parametric 2.0. It describes new methods and properties in Web.Link and also includes critical functions that require investigation of existing applications and adjustment of existing code.

### Documentation for Web.Link

Web.Link documentation comes in the following forms:

- API Wizard in HTML format
- *Web.Link User's Guide* in PDF format
- **Reference Documents** page at <http://www.ptc.com/appserver/cs/doc/refdoc.jsp>  
(Choose the product or document type)

The API Wizard and the *Web.Link User's Guide* are on the Creo Parametric DVD-ROM. You can view the API Wizard with your Internet browser. To view and print the PDF book, you must have Acrobat Reader installed. PTC welcomes your suggestions and comments on its documentation. Send comments electronically to:

MCAD-documentation@ptc.com

## Summary of Technical Changes

New Functions .....	8
Superseded Functions .....	9

This chapter describes the critical and miscellaneous technical changes in Creo Parametric 2.0 and Web.Link. It also lists the new and superseded functions for this release.

---

## New Functions

This section describes new functions for Web.Link for Creo Parametric 2.0.

### Drawing Sheet Information

New Function	Description
<code>pfcSheetOwner.GetSheetInfo</code>	Returns information about the drawing sheet.

### Export 3D Instructions

New Function	Description
<code>pfcDXF3DExportInstructions.Create()</code> <code>pfcDWG3DExportInstructions.Create()</code>	Creates the instructions objects that are used to export a model to DWG and DXF formats.

### Export to PDF

New Function	Description
<code>pfcPDFExportInstructions.ProfilePath</code>	Provides read and write access to the profile path in PDF export.

### Facet Control Options

New Function	Description
<code>pfcCoordSysExportInstructions.FacetControlOptions</code> <code>pfcTriangulationInstructions.FacetControlOptions</code>	Provides read and write access to the flags that control the facet export options.

---

## Post Regeneration Relations

New Function	Description
<code>pfcModel.RegeneratePostRegenerationRelations</code> <code>pfcModel.DeletePostRegenerationRelations</code>	Regenerates and deletes the post regeneration relations in a model.

## Step Size for Exported Files

New Function	Description
<code>pfcCoordSysExportInstructions.StepSize</code> <code>pfcTriangulationInstructions.StepSize</code>	Provides read and write access to the step size of the exported files.

## Superseded Functions

This section describes the superseded functions for Web.Link for Creo Parametric 2.0.

## Drawing Sheet Information

Superseded Function	New Function
<code>pfcSheetOwner.GetSheetData</code>	<code>pfcSheetOwner.GetSheetInfo</code>
